"Once you've tried the Dreeft wheels, you can never go back! It's the system we had all been waiting for to improve our daily lives. Our shoulders, arms and hands are finally protected."

Oksana G.

Dreeft user since 2022

SLOW DOWN

The 1st braking system for manual wheelchairs :

A PAIR OF WHEELS TO BRAKE WITHOUT INJURY

ZERO FRICTION

No more gloves
and callus on
your hands !

-80% BRAKING EFFORT

Compared to
a normal wheel
(your shoulders will thank you)

WITHOUT GRIP CONSTRAINTS

Allows you to brake
without having to grip
the handrail

Ask for our order sheet to check all the products options and details.

GO FURTHER

Combine DREETT with your electric motor :

CONTROL AND BRAKE WITH YOUR FINGERTIPS

Coupled with an electric propulsion system, DREETT lets you steer your wheelchair **effortlessly**, using your fingertips or the palm of your hand.

The motor pushes the wheelchair and DREETT lets you steer or stop by lightly pulling on the handrails, for **greater control and safety**.
